

# PINECONE BIRDFEEDER

## INSTRUCTIONS

1. Carefully glue the stick to the bottom of the pinecone and tie the string around the top of the pine cone.
2. If using a paper towel inner, tie the string through the centre and make a knot so it can hang from the trees.
3. Coat the pine cone / paper towel inner with peanut butter or coconut oil. Then cover with wild bird seed.
4. If it's a hot day, leave in the fridge to set.
5. Hang it on a branch outside and watch the birds enjoy their new treat.

## INGREDIENTS:

- pine cone / paper towel inner
- string
- craft or garden stick
- peanut butter / coconut oil
- hot glue gun
- wild bird seed
